FACT SHEET

Industrial Project Phases, Contracts and Sequencing

Who Should Attend?

This course is intended for graduates (or soon-to-be graduates), project professionals, designers, technicians, freelancers, and engineers involved in industrial projects, including project management, planning, engineering, procurement, construction, and contract management.

Previous knowledge of this subject is not required to attend the course.

Training Objectives

The main objective of this course is to provide participants with the theoretical and practical knowledge required to understand industrial project development, including project phases, contract structures, project sequencing, and the main activities involved in EPC execution.

What to expect?

Get familiar with the **vocabulary**, **terminology** and fundamentals of industrial projects, from their initial stages to execution.

Understand the **phases of an industrial project,** the main types of contracts, the roles of the different parties involved, and the sequence of activities in an EPC project.

Course Duration

The duration of this training course is **10 hours**, to be completed in 7 days. The Virtual Campus will be open for 60 days (flexibility).

Methodology

At your own pace, no scheduled sessions

Available 24/7, Self-paced

“Learn by doing” concept

Content

L01: Introduction

L02: Types of industries

Oil and gas | Power generation | Mining.

L03: Industrial projects

Industrial projects | Terms used | Types of projects | Parties | Request for tender | Project awarding

L04: Phases of a project

Concept appraisal | Concept development | Design and documentation | Construction

L05: Project contracts

Risk management | Contractor selection | Delivery | Payment contract | Contracts used in industrial projects

L06: Sequence of an EPC project

Scope | Project management | Planning | Quality management | Engineering | Procurement | Construction

Instructor

Senior Mechanical Engineer and master's in business administration (MBA). **More than 25 years of experience in design, calculation and fabrication of pressure vessels, heat exchangers, storage tanks, piping systems and structures in general.**

Duties of the above-mentioned positions cover the entire cycle of an equipment, **from the very conception, drawings, design and calculation, technical specifications, technical requisitions, vendor drawings, to the manufacturing phase and installation assistance**. Among the developed projects, clients such as SHELL, EXXON, REPSOL, CHEVRON, GALP, CEPSA, TUPRAS and SAUDI ARAMCO can be found.

Vast experience providing specific training sessions in both classroom and online methodologies. More than 75 training courses carried out in different institutions and in-company, courses oriented to graduates, designers, engineers and experienced professionals.

Tailored Training

The most effective training is one that satisfies the needs of each company's business focus and deliverables. **We adapt our training programs to each specific requirement, offering bespoke solutions for each need.** The result, 100% tailored programs, developed to maximize the time investment and deliver tangible and intangible returns to the work teams.

After an assessment phase, a tailored training plan is designed jointly with the client. This plan is specifically tailored to meet the client's needs, focusing on effectively enhancing the capabilities of the work team. **We provide practical, dynamic and hands-on training,** making available the best instructors in each subject.

Arveng Training

Arveng Training has developed effective and practical solutions for today's industrial challenges by delivering specific, high-quality engineering courses utilizing three different approaches: classroom, online, and tailored training. We are proud to have taught more than 500 classroom courses, 1800 online courses, and over 200 in-company sessions. Our training activities have benefitted over 6000 professionals, our greatest accomplishment of all.

We consider our students' time to be of utmost importance. For this reason, all our courses have been designed with the main objective of quickly improving the professional skills of the participants through our expert instructors in different disciplines. **We stimulate creativity, innovation, and initiative to make the participants inquisitive, bringing good engineering practices and lessons learned to the field, that benefits their professional lives in the long term.**

Our Company

Arveng Training & Engineering SL is a leading company providing Training and Engineering services based in Madrid, Spain. Our mission and vision are to be a leading training and engineering services company, providing our clients with the best in the sector. We are a team of highly motivated, talented, highly qualified professionals with over 20 years of experience. We aim to exceed expectations by offering efficient, innovative, cost-effective, and transparent services.

Established in July 2010, mainly oriented to the industrial sector, from the very beginning Arveng has always worked with closeness, responsibility, and commitment in all areas of activity.

Through experience gained by partaking in multidisciplinary engineering projects in sectors such as Petrochemical, Energy Generation, and Industrial, we provide answers and solutions to concrete requirements, making the effort to build long-lasting and mutually beneficial relationships.
